## PROFILE

Student, 25, Bachelor in Multimedia Project Manager at Digital Campus Bordeaux, a digital native, and 3.0 brain and child of the advertising, it's with the motto "**Do not think outside the box, throw away the box**" that I evolved.

Passionate about the web, my marketing skills, graphic design, web development, video, allow me to adapt to all types of projects.

"**Design the unexpected. Create the unforgettable!**" beat my thinking. Beyond the words, that's how my thought was structured. Breaking the codes, innovate, strive for perfection determine my profile.
